

Find open jobs and government services at Job Market Finland

Using the Job Market Finland online service, you can find information and services related to working life as well as open jobs. When you log in to Job Market Finland and create a job applicant profile, you get offered job postings suitable just for you.

At Job Market Finland, you can

- browse job postings with different search criteria and, in addition to open jobs, search for entrepreneurial opportunities and apprenticeships,
- create your own job applicant profile, publish it to employers to view, and receive messages from employers interested in your expertise,
- get offered job postings that are the most suitable for you, once you have added information on your skills to your job applicant profile, and
- export your job applicant profile at the touch of a button to the EURES portal, through which it is possible to get contacted by European employers.

Job Market Finland also provides you easy access to the E-services of TE Services

They contain government services regarding job seeking, unemployment security, and employment services.
